

 **Steel Golf Enclosure**

Steel Golf Enclosures

The ideal practice cage for all golf clubs.

- 38mm diameter x 1.6mm galvanised steel uprights and topods complete with tube clamps
- 460mm deep steel sockets fitted with stabilising base plates
- For safety these bays have been designed so that the net is suspended on the inside of the frame to prevent ball rebound
- Steel enclosures may not be suitable for exposed and windy locations
- Netting must be ordered separately
